

Hold Your Ground

Chase & Status

I'm falling again
Down this empty hole
That I made up inside my head
Oh, I don't know
I'm thinking again
Oh, how'd I let it get like this?
Oh, it's so criminal
I hope you're comfortable

It's getting hard to breathe, but that's alright
Take our memories and hold them tight
Oh, this harmony is getting me through the night
It's getting hard to breathe, but that's alright
Take our memories and hold them tight
And stay right there

Just hold your ground
Oh, I've seen these troubled waters
I won't let this ship go down
Just hold your ground
It's so hard to find the words
When you're not around

The devil couldn't catch my soul
So tell me why I sold it to you
One stare, you shot my vision
Now all I see is red
I need a come down from this ecstasy
I'm losing my mind too frequently now
It's so hard when all I see is you

It's getting hard to breathe, but that's alright
Take our memories and hold them tight
And stay right there

Just hold your ground
Oh, I've seen these troubled waters
I won't let this ship go down
Just hold your ground
It's so hard to find the words
When you're not around

Whoa no
Hold on for me, darling
Oh, this body's yours not mine
Hold on to somebody
We will soon have our time

Just hold your ground
Oh, I've seen these troubled waters
I won't let this ship go down
Just hold your ground
It's so hard
Now you're not around, oh no
