

## Over & Done

### Chase & Status

Giving in slowly  
I'm over it  
You take it all  
I don't want none

I chase it with the water  
You said that you won't love  
I don't want to disappoint ya

Turn away, turn away  
What you say, what you say, what you saying  
Never learn to listen  
It's over and done

Turn away, turn away  
What you say, what you say, what you saying  
Never learn to listen  
It's over and done

I don't really wanna give up  
You don't ever wanna give in  
And this is what they really call love  
It ain't it

I chase it with the water  
You said you won't love  
I don't want to disappoint ya

Turn away, turn away  
What you say, what you say, what you saying  
Never learn to listen  
It's over and done

Turn away, turn away  
What you say, what you say, what you saying  
Never learn to listen  
It's over and done

Ooh  
Ooh  
Ooh  
Ooh

Never learned to listen  
It's over and done  
Never learned to listen  
It's over and done

Ooh  
Ooh  
It's over and done  
Ooh  
Never learned to listen  
It's over and done
