Some of them, they just pleased to
Nothing in their heart
They don't know what is good

Some of them they just pleased to
Nothing in their heart
They don't know what is good

I don't like it when someone says something
Like they're gonna stick to their words
That's what I would have preferred
Now I ain't got no choice but to just see them
As an untruthful voice that I can't believe in

'Cause everything is blessed one day, yeah
But the next day might turn another way

Some of them, they just pleased to
Nothing in their heart
They don't know what is good
Some of them they just pleased to
Nothing in their heart
They don't know what is good
Fight, fight, fight
Yeah they just fight, fight, fight, yeah
And there's no light, light, light, woah
And they just fight, fight, fight, yeah

I'm not about no miscommunication
(Miscommunication)
'Cause it's nothing worse than false information
(False information)
Feed them only lies to a congregation
(Only lies to a congregation)
And now the people them see your words as forsaken
(See your words as forsaken)

'Cause everything is blessed one day, yeah
But the next day might turn another way

Some of them, they just pleased to
Nothing in their heart
They don't know what is good
Some of them they just pleased to
Nothing in their heart
They don't know what is good
Fight, fight, fight, oh
Yeah they just fight, fight, fight, yeah
And there's no light, light, light, woah
And they just fight, fight, fight, yeah

There's nothing real no more
There's nothing real no more
There's nothing real no more, no, no, no, oh
There's nothing real no more
There's nothing real no more
There's nothing real no more

There's nothing real no more
There's nothing real no more
