Take You There

Chase & Status

Take You There I been waiting for this moment For you to come around And I been living fantasies Of how I'm gonna lay your body down So baby, take your clothes off Even better, let me help I love you from head to toe All night long Let me take you there Yeah-eah Ooh we ain't proud and out No one ain't finding out It's just you and me Let me take you there Yeah-eah Nobody else around I'll be loving your body down The way it's s'pposed to be Let me make? ya I got everything you need, babe Cos I'm all about my game And with a little more attention I'll have you screaming my name So baby, take it easy We ain't even gotta rush I wanna send shivers up and down your spot Every time we touch
