

This Moment

Chase & Status

What if I could call you up but you run
What if I could be somebody you'd like
Maybe there's a way I can get you to come
Maybe you'd say that you'd be better off mine
Imagine all the things you could do with someone
Imagine me and you getting better with time
Pick of all the ways you could get me undone
Pick out what to say once you're kissing my thigh

This is the moment
This is the moment
All the songs were sad, all the songs were sad
Until I came to love you

Since the moment I left
I can't get you out my head
Was kind of hoping you'd said
You stay here with me instead

This is the moment
This is the moment
All the songs were sad, all the songs were sad
Until I came to love you

Probably just somebody you got sick of before
Probably just a lover if I ever get time
Think I know you well but I wanna know more
Think that you could tell I wanted you by side
Left me in your room for the seconds someday
Left me in your fumes, we'll be better offline
We'll never be alone when it works both ways
You're never on your form, maybe that's what I like

This is the moment
This is the moment
All the songs were sad, all the songs were sad
Until I came to love you

This is the moment
This is the moment
All the songs were sad, all the songs were sad
Until I came to love you

I know I want you
I know I need you now (now, now)
I know I want you
I know I need you now (now, now)

This is the moment
This is the moment
All the songs were sad, all the songs were sad
Until I came to love you

Since the moment I left
I can't get you out my head
Was kind of hoping you'd said
You stay here with me instead

This is the moment
This is the moment
All the songs were sad, all the songs were sad
Until I came to love you
