

# Dogs of Justice

## Chasing Safety

I've fought for everything that I have always felt I deserved  
So pry this from my hands  
We'll see how much you've learned  
Why am I the only one who speaks what he believes  
I just don't understand it

Waiting for the day the  
Silence fades away  
And the world begins to sing  
Working for the day  
The silence fades away

I hope it fades away

How could you ever know  
How deep these cracks have grown  
My mistake for showing you the road  
The lack of self control shows me where you'll go  
I'll never understand it

I'll never understand  
How you can sit there and face a man  
Who's spilt his blood for everything that he has  
While you're rising to the top  
Not even dirt on your hands

Silence fades away  
And the world begins to sing  
Working for the day  
The silence fades away

I hope it fades away

How could you ever know  
How deep these cracks have grown  
My mistake for showing you the road  
The lack of self control shows me where you'll go  
I'll never understand it

With everything I know  
I'll never sink below  
My mistake for showing you the road  
The lack of self control shows me where you'll go

I'll never understand it

In the end  
We will finally see  
The silence end the world begin to sing

Waiting for the day  
The silence fades away  
And the world begins to sing  
And were left with nothing but peaceful days  
Working for the day  
The silence fades away  
And the world begins to sing

And were left with nothing but peaceful days

How could you ever know  
How deep these cracks have grown  
My mistake for showing you the road  
The lack of self control shows me where you'll go  
I'll never understand it

With everything I know  
I'll never sink below  
My mistake for showing you the road  
The lack of self control shows me where you'll go

I'll never understand it
