

Save Me Tonight

Chastain

I've been far and wide
I've been deep inside
But I will never, go dark side
And I will never, preach suicide

Oh not again

Take me, you know that I will always be here

Save Me Tonight
Save Me Tonight

Over, and again
So close, to the end
I see reflections, I see the signs
I feel dejections, across all time

Call me, you know that I will always be here
Tell me, you know that goods things now will appear

Save Me Tonight
Save Me Tonight

Face off, with right and wrong
Trade off, with short and long
But I will never, go dark side
And I will never, preach suicide

Show me, you know that I will always be here

Save Me Tonight
Save Me Tonight
