

## Secrets

Chastain

Working in darkness thriving in greed  
Manifestation of what we really need  
Secrets creeping through your soul  
Passions always asking more  
We're enlightened from within  
Magic is the truth and then  
Illuminati swirls around your head  
Life is distracting, be unseen instead  
Secrets creeping through your soul  
Passions always asking more  
We're enlightened from within  
Magic is the truth and then  
Secrets....Secrets creeping  
Help us, We're believing  
On and on the shadow flows  
Straight through your heart  
Secrets are created by the one who owns the dark  
Prophecy goes on and on  
Straight through your heart  
Secrets are determined by the one, Who owns the dark  
Enter the realm of possibility  
You can't destroy what it is that I have seen  
Secrets creeping through your soul  
Passions always asking more  
We're enlightened from within  
Magic is the truth and then  
Secrets....secrets creeping  
Help us, We're believing  
Secrets....Secrets creeping  
Help us, We're believing
