

Davis

Chat Pile

I remember your face
Cringing
Withering
I remember the color of your skin
When they found you
I remember
I remember

Davis
Davis
Davis
Running water
Rushing water
Rushing water
Rushing water

I see the car
I'm coming down now
Come back up and
Help me drown
I heard the shot
I'm indifferent, what can I do?
Looking out the window
All I fucking see is you

I know
Four days
I know
What do you want?
What do you want?
What do you want?
What do you want?

Davis
Davis
Davis
Davis
Davis

I was there and
I was outta there
Waited four nights
I was the one that pushed
Your eyes
Your eyes
My face
Your eyes
Your eyes

Davis
Davis
I know
Davis
Davis
Davis

Rushing water

Clean
Clean out
My arms
Like copper wire
You lie
You liar
We was just kids
We was just kids
Davis
