

It's probably what you're thinking
It's probably what you're thinking honest
It's probably what you're thinking
It's probably what you're thinking honestly

But I've never been to
A place like this
Not even in my dreams
Not even in dreams

It's probably what you're thinking
It's probably what you're thinking honestly so

I don't care
I don't care
I don't care
I don't care

What makes you
Alive
What makes me
Alive
What's the meaning of this
What's the meaning of this
What's the meaning of this
What's the meaning of this

'Cause even at my best
It don't compare
Somethings that used to shine
Don't compare

I don't care
I don't care
I don't care
I don't care

Reading books in the afternoon
Getting drunk in the afternoon
Reading books in the afternoon
Getting drunk in the afternoon

I don't
Want you
To know
To know
I don't
Want you
To know
To know

I don't want you to know
I don't want you to know
I don't want you to know
I don't want you to know
I don't want you to know
I don't want you to know

I don't want you to know
I don't want you

It's probably what you're thinking
It's probably what you're thinking honest
It's probably what you're thinking
It's probably what you're thinking honest
It's probably what you're thinking
It's probably what you're thinking honest
It's probably what you're thinking
It's probably what you're thinking honestly so
