

Milk Of Human Kindness

Chat Pile

They said the word and it was
We bought the truth just because
Told us to go, so we went
Out on a road rough and bent
Out to protect what we love
Their blood all over our gloves

I screamed about it all night
I screamed about it all night
I screamed, I screamed
I screamed, I screamed

I see them everywhere now
Haunt my life, you're allowed

I screamed about it all night
I screamed about it all night
I screamed, I screamed
I screamed, I screamed

I'd heard
Nothing about the way they burn
Nothing about the way they burn
Nothing about the way they burn
Nothing about the way they burn

I screamed, I screamed
I screamed, I screamed
I screamed, I screamed
I screamed, I screamed

I'd heard
Nothing about the way they burn
Nothing about the way they burn
Nothing about the way they burn
Nothing about the way they burn

I screamed, I screamed
I screamed about it all night
I screamed, I screamed
I screamed about it all night
I screamed, I screamed
I screamed about it all night
I screamed, I screamed
I screamed about it all night
