

Another World (Reprise)

Cheap Trick

Say you've had it, now I know it's bad
These are the worst times that we've ever had
Down from the clouds words stumble 'round your head
Just can't believe in everything they've said

I will be there for you (Yeah, yeah, yeah, yeah, yeah)
I will stand by your side (Yeah, yeah, yeah, yeah, yeah)
We'll find us a way
To have shelter and say
We believe in
In another world

Been so hard, just so hard of late
So tired and I can't keep straight
With all this hate, just come inside
Out of the blues, oh

I will be there for you (Yeah, yeah, yeah, yeah, yeah)
I will stand by your side (Yeah, yeah, yeah, yeah, yeah)
We'll find us a way
To have shelter and say
We believe in
In another world

In another world
We will be happy
In another world
We will be free
In another world
There will be peace for you and me, yeah, yeah

If we lived in another time
The stars would shine on the other side
Shine down on a life gone by
If we lived in another time

Things will work and fate will have its way
Nothing can bring us down, come what may
I'll love you now and ever anyway
That is the answer for the world today

In another world
We could be happy
In another world
We could be free, free
