

Big Bang

Cheap Trick

First class all the way
Feel it every day
Second guess is just too late
So make no mistake
I wanna reason, I gotta know
Which way to go

Big bang, hit it again
Between the eyes, is sex a sin?
Bad news, you know it's true
The bad news is you
Don't need a reason, I'm ready to go
Yeah, I'm ready to go

I'm stuck in the middle, on my own
Never felt so all alone
I'm in the middle, on my own
I never felt so all alone

Freak show, gotta go
Where's my place? Well, I don't know
I'm anesthetized, no surprise
I'm fallin' down again
I wanna reason, I gotta know
Which way to go

Too much fun, not enough time
Crawlin' through the city every night
Feels so good, it's nothin' new
It's almost too late
Don't need a reason, I'm ready to go
I'm ready to go

I'm stuck in the middle, on my own
Never felt so all alone
I'm in the middle, on my own
I never felt so all alone

I never felt so all alone
I never felt so all alone
I never felt so all alone
I never felt so all alone

Big bang, hit it again
Between the thighs, just let me in
Hey, you, you know it's true
The bad news is you

I need a reason, I gotta know
Which way to go
Yeah, some kind of reason, I'm ready to go
Yeah, I'm ready to go

I'm stuck in the middle, on my own
Never felt so all alone
I'm in the middle, on my own
I never felt so all alone

I'm stuck in the middle, on my own
Never felt so all alone
I'm in the middle, on my own
I never felt so all alone

Yeah, I never felt so all alone
Big bang, hit it again
