

## Final Days

Cheap Trick

We're living in the final days  
Remembering yesterday  
Seems so, it's been so long  
Now that we're into the final days  
The end of the road is filled with shadows  
Lost in these final ways  
Seems so, been so long  
Seems so, seems so, been so

What if we could live forever?  
Wouldn't it all just be insane?  
What if we all could live together?  
Never to be in those final days

What if we didn't like living in final days?  
Sitting here thinking 'bout loving in final ways  
Seems so, been so, been so long  
Are we living and loving in final days?  
How could we still be living in final ways?  
Seems like the end of the road in these final days  
It seems so, seems so, been so  
Seems so, seems so, been so long

What if we could live forever?  
Wouldn't it all just be insane?  
What if we all could live together?  
Never to be in those final days

What if we could live forever?  
Wouldn't it all just be insane?  
What if we all could live together?  
Never to be in those final days
