

How About You

Cheap Trick

Never started out first
Never finished last
Like to change the pace
Like to change it fast
And I'm ready to try
Just can't sit around here too long
I can feel the wheels are spinning strong
Does anyone feel the same as me
Does anyone disagree
Well how 'bout you
I said goodbye to bad luck
I've had enough
But I know I'll be back, dear
Didn't fall off the side of the earth
Gonna turn it all around
How 'bout you, how 'bout me, how 'bout you

Do you like your love soft and warm
Do you like it hard, hot and long
Like you're ready to die
Sometimes I feel all wound up
Head starts spinnin', it'll never stop
Does anyone feel the same as me
Does anyone disagree
Well how 'bout you
I said bad times kiss them goodbye
I want changes, but
I know I'll be back, dear
Didn't fall off the side of the earth
Gonna turn it all around
How 'bout you, how 'bout me, how 'bout you

I know I'll be back, dear
Didn't fall off the side of the earth
Gonna turn it all around
How 'bout you, how 'bout me, how 'bout you
