

I'll Be with You Tonight

Cheap Trick

Tonight, tonight, I'll be with you tonight
Tonight, tonight, I'll be with you tonight
Tonight, tonight

You got me burnin', burnin' with desire
You got me burnin', burnin' like a fire, oh yeah

You got me thinkin', thinkin' what I'll do
No doubt about it, I want it with you
Though you're not my first love, you just might be my last
My heart is poundin' like a drum, drum, drum, drum
Drum, drum, drum, yeah

Tonight will be the first night that I've been in love with you
You get me so excited, I'm not sure what I'm gonna do
Tomorrow you won't be here and I don't expect you to
Tonight is all I really want, I really want from you

Tonight, tonight, I'll be with you tonight
Tonight, tonight, I'll be with you tonight
Tonight, tonight

Everything about you is more than everything
You make me crazy, I'm doin' crazy things, oh yeah

Tonight when I first saw you, I knew it had to be
Why'd you have to be so right for me?
Though you're not my first love, you just might be my last
My heart is poundin' like a drum, drum, drum, drum
Drum, drum, drum, yeah

Tonight will be the first night that I've been in love with you
You get me so excited, I'm not sure what I'm gonna do
Tomorrow you won't be here and I don't expect you to
Tonight is all I really want, I really want from you, from you, from you

Ooh tonight, tonight, I'll be with you tonight
Tonight, tonight, I'll be with you, I'll be with you, I'll be with you
I'll be with you tonight, tonight

I'll be with you, I'll be with you, I'll be with you
I'll be with you, I'll be with you, I'll be with you
I'll be with you, I'll be with you, I'll be with you
I'll be with you, I'll be with you, I'll be with you
I'll be with you, I'll be with you, yeah tonight
