

## Light Up The Fire

Cheap Trick

All of them boys with all of them toys  
Can turn your head around, you don't wanna be bound  
So keep your head on straight if you wanna stay fine  
Are you looking for heaven or one hell of a time?

Turn it around, it's your better side  
Let's see what you've got, let's go inside and

Light up the fire, the heat starts coming  
It's getting so hot, the sirens are calling  
You've got what you've got, the flame is burning brighter  
So light up the fire but don't burn my love to the ground

Don't fall down just anyone's stairs  
If you're looking for love now you best take care  
With your time so privy that my mind gets dizzy  
Are you looking for heaven or one hell of a time?

Turn it around, it's your better side  
Let's get hot and go inside, well

Light up the fire, the heat starts coming  
It's getting so hot, the sirens are calling  
You've got what you've got, the flame is burning brighter  
So light up the fire but don't burn my love to the ground

Light up the fire, whoa!

So light up the fire, the heat starts coming  
It's getting so hot, the sirens are calling  
You've got what you've got, the flame is burning brighter  
So light up the fire but don't burn my love  
Light up the fire, the heat starts coming  
It's getting higher, those sirens are calling  
You've got what you've got, the flame is burning brighter  
So light up the fire but don't burn that love to the ground
