

Like A Fly

Cheap Trick

Sometimes I feel like they talk about me like a dog
A dog
I can just hear the words floating through the sky
In a fog

Voices keep on calling
My skin crawls whenever
I see your face like a fly on the wall
In your eyes like a fly on the wall
All the lies like a fly on the wall
I see it all like a fly on the wall

Look over your shoulder
I'm always watching every move
There's no secrets left now
There's nothing that's right for you to prove

Voices keep on calling
My skin crawls whenever
I see your face like a fly on the wall
In your eyes like a fly on the wall
All the lies like a fly on the wall
I see it all like a fly on the wall

Voices keep on calling
My skin crawls whenever
I see your face like a fly on the wall
In your eyes like a fly on the wall
All the lies like a fly on the wall
I see it all like a fly on the wall
