

# Long Time No See Ya

Cheap Trick

Long time, no see ya'  
So good to see ya'  
I don't care  
Where you've been  
Or what you want  
Or why you went

Long time, no see ya'  
So good to see ya'  
I don't know  
When you left  
Or who you're with  
Or what's your sin

Long time, no see ya'  
So good to see ya'

But then I get to thinking  
And then I get a drink  
And then I get another  
Again I get another  
Another, another  
Again I have another  
And then it comes to me, I wanna have another well

So good to see ya'  
Long time, no see ya'  
You're back where you belong  
So good to see ya'  
Now I'm better, been way too long

Happy endings  
Never end  
It's only now  
Over and over

Long time, no see ya'  
So good to see ya'  
Stop my friend  
Star again  
Drinking song  
He sings again

Long time, no see ya'  
So good to see ya'

But then I get to thinking  
And then I get a drink  
And then I get another  
Again I had another  
Another, another  
Again I have another  
And then it comes to me, I wanna have another right  
So good to see ya'

Long time no see ya'  
You're back where you belong

So good to see ya'  
Now I'm better, been way too long

Long time no see ya'  
You're back where you belong  
So good to see ya'  
Now I'm better, been way too long  
Long time no see ya'  
You're back where you belong  
So good to see ya'  
Now I'm better, been way too long

Long time no see ya'  
So good to see ya'
