

# Quit Waking Me Up

Cheap Trick

It's always the fast one that leaves a scar  
She leaves you until morn'  
She'll just do it like there's nothing to it  
The bedding's all over the floor

All around, all around, all around  
All around, all around

Quit waking me up, I've had enough  
Of you bringing me down (Quit waking me up)  
You're winding me up, and I've fallen in love  
With the way that you sound  
Sound, sound

How does it feel to be under the stars  
In the backseat of my car?  
Waking me up after all that's gone down  
I really don't know who you are

Going down, going down, round and round  
All around, all around, all around

Quit waking me up, I've had enough  
Of you bringing me down (Quit waking me up)  
I'll dream what I want, I'm not gonna stop  
In your love, I could drown (Quit waking me up)  
Quit waking me up, I've had enough  
Of you bringing me down (Quit waking me up)  
You're winding me up, and I've fallen in love  
With the way that you sound  
Sound, sound

Going down, going down, round and round  
All around, all around, all around

Quit waking me up, I've had enough  
Of you bringing me down (Quit waking me up)  
I'll dream what I want, I'm not gonna stop  
In your love, I could drown (Quit waking me up)  
Quit waking me up, I've had enough  
Of you bringing me down (Quit waking me up)  
You're winding me up, and I've fallen in love  
With the way that you sound  
Sound, sound
