

Already Hungover

Cheat Codes

I'm still at the party
But I feel like I'm in bed with a Tylenol
See you talkin' with somebody
Feels like I'm bangin' my head against the wall
And you're twenty feet away, but I can feel the repercussions
And the mornin'-after symptoms comin' down
Yeah, I'm still at the party
Yeah, I should be kinda high, but not at all, not at all

I'm so sober, I could cry
You take my emotions and you pour 'em over ice
Still so early in the night
All you do is look at me and I'm
Already hungover
Fillin' up with regret
Yeah, I'm already hungover
And I don't even know you yet

Yeah, I'm already hungover
Yeah, I'm already hungover

Don't come any closer
I already know the way it's gonna end
I'll just wake up feelin' sorry
Swear to God I'm never doin' that again
When you say my name, I pause
You will never know the cost of someone like you
But I should know by now
Don't come any closer, I already feel the painful side effects, mm

I'm so sober, I could cry
You take my emotions and you pour 'em over ice
Still so early in the night
All you do is look at me and I'm
Already hungover

Yeah, I'm already hungover
