

Change Your Mind

Cheat Codes

When I first heard the words, it didn't matter
You'd never let me down, I know your standards
You keep your lovin' for your man, nobody else
They just talkin', must be somebody else
But you know rumors grow like avalanches
When your lips said his name, I couldn't understand it
You keep your lovin' for yours but at the same damn time

How could you change your mind, mind?
After all this
Tension's deep to turn around
Tension's deep to turn around
Mind, mind? (How could you change your mind?)
After all this (How could you change your mind?)
Tension's deep to turn around (How could you change your mind?)
Tension's deep (How could you change your mind?)

How could you change your mind?
How could you change your mind?
How could you change your mind?

You live the party life, you take your chances
Put this lipstick on for second glances
Soon as you get home, that's when you're stranded
I can't explain the way I took your love for granted
I would've been here for you, I would've tried it
I let you in, I never could deny it
I needed your love and mine to work the same damn time

How could you change your mind, mind? (How could you change your mind?)
After all this (How could you change your mind?)
Tension's deep to turn around (How could you change your mind?)
Tension's deep (How could you change your mind?)

How could you change your mind?
How could you change your mind?
How could you change your mind?
How could you change your mind?
