

If you got us

Every time that I look into your eyes
I get visions of a beautiful life
Like a billboard you can light up my night
Oh I can watch you everyday
Ah you're the future that I'm starting to see
You're the reason that I'm losing my sleep
Every second you're my favourite scene
Oh I could watch you everyday

The way that you love, the way that you touch
I wanna watch you baby you are my cinema
The story of us, nobody can't stop
I wanna watch you baby you are my cinema
I wanna watch you baby you are my cinema

All the magic that you put in the room
Ain't nobody that could do it like you
Every moment with you [?]
Oh I could watch you everyday

The way that you love, the way that you touch
I wanna watch you baby you are my cinema
The story of us, nobody can't stop
I wanna watch you baby you are my cinema
(You are my cinema, you are my cinema)
I wanna watch you baby you are my cinema

Baby kill the lights, do it one more time
Love me like the movies so you tell me all night
Baby kill the lights, do it one more time
I wanna watch you baby you are my cinema

Baby kill the lights, do it one more time
Love me like the movies so you tell me all night
Baby kill the lights, do it one more time
I wanna watch you baby you are my cinema
