

Find Love Now

Cheat Codes

I've cried all of your tears
I've feared all of your fears
Thought I needed saving
I've searched higher than high
Took the lows in my stride
Got tired of waiting

So if you're here in this moment
Let your heart open
Don't be afraid to fall, and don't look down
I know you've been searching
I know you've been hurting
I know a place where we can find love now
Find love now
Don't look down
I know you've been searching
I know you've been hurting
I know a place where we can find love now
We can find love now
(We can find love, we can find love)

And we will keep climbing
We'll hit new highs and
The sky is the limit
Now I see diamonds
The stars are aligning
You're not alone

So if you're here in this moment
Let your heart open
Don't be afraid to fall, and don't look down
I know you've been searching
I know you've been hurting
I know a place where we can find love now
Don't look down
I know you've been searching
I know you've been hurting
I know a place where we can find love now
(We can find love, we can find love, we can find love)
We can find love now
(We can find love, we can find love, we can find love)
We can find love now
(We can find love, we can find love, we can find love)
We can find love now
(We can find love, we can find love, we can find love)
We can find love now
We can find love now

We can find love now
