Follow You

It's 5 am and I'm awake
Sephora stains your pillow case
And how I wish I could feel your lips on mine today

The road can be long, the distance is hard
But I won't let it swallow you
From New York to LA, Vegas to Santa Fe, oh
Baby, I'll follow you
I'll follow you, I'll follow you
Now when the clouds fall down and the sky ain't so blue, blue
I'll follow you, I'll follow you

It's 12 o'clock, I'm still in bed
Take a drag from a cigarette
How I wish I could feel your lips on mine instead

The road can be long, the distance is hard
But I won't let it swallow you
From New York to LA, Vegas to Santa Fe, oh
Baby, I'll follow you
I'll follow you, I'll follow you
Now when the clouds fall down and the sky ain't so blue, blue
I'll follow you, I'll follow you
