

# Know No Better

## Cheat Codes

Wouldn't it be nice if my mind never thought of you?  
Oh, all the time I'd be savin' up  
I set my heart on the fall for somebody new  
Erase your face but it's not enough

'Cause you can bring me back in  
Just a second, just like that  
I can't remember why we ended this, but I

I know that I should know better  
Said I would forget  
But I know no better with you  
I know that I said I'd never  
Let you in my head  
But I know no better with you

I know that I should know better  
Said I would forget  
But I know no better with you  
I know that I said I'd never  
Let you in my head  
But I know no better with you  
I know that I should know better  
Said I would forget  
But I know no better with you  
I know that I said I'd never  
Let you in my head  
But I know no better with you

You'd be easy to leave if I hated you  
But you just know how to make it hard  
I take the good with the bad, all the shit you do  
I'm goin' stupid when I'm in your arms

'Cause you can bring me back in  
Just a second, just like that  
I can't remember why we ended this, but I

I know that I should know better  
Said I would forget  
But I know no better with you
