

## Modern Tragedy

### Cheat Codes

Unattached, heart was racing  
On a one-way track  
I got lost in the feeling  
And felt nothing at all  
Made my part, won't get crazy  
Over one-night stars  
Just the time that we live in  
The writings on the wall

So here we go again  
A night to feel alone  
I guess it's gonna be  
A modern tragedy  
And I'm supposed to start again  
A face, a name, a ghost  
I guess it's gonna be  
A modern tragedy  
And I'm supposed to start again

Love to keep options open  
While I found my peace  
But the grass wasn't greener  
And you're still on your own (You're still on your own)  
Played my part, won't get crazy  
Over one-night stars  
Just the time that we live in  
The writings on the wall (Writings on the wall)
