

# On My Life

## Cheat Codes

Oh nah, this still the light of mine  
They better see me, better see me shine  
I'll get my money, get my money right  
I put that on my life

No lie, yeah  
I remember when nobody fucked with me  
They never called back, I could've caught that  
Lisin' my mind, yeah  
Stressin' over pretty girls and lunch money  
Models have changed, only my change

All those nights, all those nights in the basement  
All along, all along I've been sayin'

Oh nah, this still the light of mine  
They better see me, better see me shine  
I'll get my money, get my money right  
I put that on my life

Oh God, hey  
New crib, new whip, new bitch  
Feel like old money  
Now they come back, I could've caught  
Now that I'm on, ayy  
Stay with all my people who got love for me  
Models have changed, took only my change
