Put Me Back Together

Cheat Codes

I never met nobody
Who sees the stars the way you do
Nobody that can love me
When I'm stumbling 'round the room
You put your hands on my body
And you give me that room
And I know that you got me
When I'm falling into you

You take me high, when I'm dropping low
And you show me places I never know
Even when we just running around town getting stoned
Boy, you put me back together again
A Coca-Cola Hennessy
Everybody says you're no good for me
But you're my fucked up remedy
Boy, you put me back together again

Put me back together again

When you're lying with me on the car hood
Sharing swisher sweet dreams
You make me feel so classy
Like I'm an LA queen
You don't care that I'm broken
You don't care that I'm mean
You just say that I'm golden
Like a Jesus piece

You take me high, when I'm dropping low
And you show me places I never know
Even when we just running around town getting stoned
Boy, you put me back together again
A Coca-Cola Hennessy
Everybody says you're no good for me
But you're my fucked up remedy
Boy, you put me back together again
