Cheat Codes

I'm type of guy to do a right thing wrong
Always holding off instead of holding on
But that's not true
When I hold you

Baby I'm so tired of being on and off
Maybe we should throw some whiskey on them rocks
Me and you
To tell the truth

I need you like tequila needs salt and lime
Nothing tastes sweeter than your lips on mine
If everything's better
When we're together
Why are we wasting time?

I been sipping on your love too long
Baby you're the only one I want
So I'm gonna reach for the bottle
Pour me a double
Gimme everything you got

I've been doing you and me all wrong
What the hell have I been waiting for?
I want you straight from the bottle
Pour me a double
I been sipping on your love too long

I been sipping on your love too long

Lately I've been thinking 'bout the night we met
no I didn't realize how lucky I was then that
That I was there right time right place
And that you walked on over my way

I need you like tequila needs salt and lime
Nothing tastes sweeter than your lips on mine
If everything's better
When we're together
Why are we wasting time

I been sipping on your love too long
Baby you're the only one I want
So I'm gonna reach for the bottle
Pour me a double
Gimme everything you got

I've been doing you and me all wrong
What the hell have I been waiting for
I want you straight from the bottle
Pour me a double
I been sipping on your love too long

I been sipping on your love
I been sipping on your love
I been sipping on your love too long

Straight from the bottle
I been sipping on your love too long
