Wish It Was Me

I've been hearing sad songs
Always see your face
Took the nine across town
To crash in my friend's place (Crash in my friend's place)

I've been looking for myself in the mirror
I've been laying up thinking I'm fine
And when I, and when I saw things just a little bit clearer
I knew I was the reason why

I heard you met somebody, hope you're happy
I wish it was me, but I let you down
It's on me, made myself bleed
I wish it was me holding you now
Somebody, hope you're happy
I wish it was me, but I let you down
It's on me, made myself bleed
Guess it's way too late to try to fix us now

Somebody
Wish it was me
Somebody
Guess it's way too late to try to fix us now

I've been reminiscing (Mmm, oh)
It's not good for me
'Cause now I'm seeing all the things I'm missing
And you're so far out of reach (And you're so far out of reach)
