

You Don't Even Know Me

Cheat Codes

I could be the one, give you all you wanted
Never do you wrong, be the one he wasn't
If I met you in a dream, would you even know it?
If you only knew the way you dance around in
My whole damn mind

Oh I'm such a fool
And you don't have no clue
That all I want is you

You don't even know me
So why do I feel so close to you?
What am I doing?
Falling in love with you

You don't even know me
And every night I think of you
What am I doing?
Falling in love with you

You don't even know me
So why do I feel so close to you?
What am I doing?
Falling in love with you

You don't even know me
So why do I feel so close to you?
What am I doing?
Falling in love with you

If you could see my thoughts, they'd be your reflection
But you only look at him, he got your attention
To you I'm just another echo in the distance
If I handed you my heart, would you wanna break it
Or hold it tight?

Oh I'm such a fool
And you don't have no clue
That all I want is you

You don't even know me
So why do I feel so close to you?
What am I doing?
Falling in love with you

You don't even know me
And every night I think of you
What am I doing?
Falling in love with you

You don't even know me
So why do I feel so close to you?
What am I doing?
Falling in love with you

You don't even know me
So why do I feel so close to you?

What am I doing?
Falling in love with you

You don't even know me
So why do I feel so close to you?
What am I doing?
Falling in love with you

You don't even know me
And every night I think of you
What am I doing?
Falling in love with you

You don't even know me
