

Hit my trap bitch up and told her we can pay
I ain't worried bout no bitch, we catching plays
On the highway and you know we switching lanes
On that money shit, we do this every day

I done threw too many racks on her
I done fucked up the set on her
Hit my trap bitch up and told her we can pay
She said I'm tired of counting money, let's get laid
I just bought a new Porsche for my girl
Welcome to Chedda World, I fill your neck with pearls
Big big house with a pool in LA
It's a money maker [?] real estate
[?] fuck with them hoes cause they jealous
I hustle by my lonely, you niggas jealous
With my help, I was selling all the shit
With my ride or die, I love [?]

Hit my trap bitch up and told her we can pay
I ain't worried bout no bitch, we catching plays
On the highway and you know we switching lanes
On that money shit, we do this every day

I been running through these hoes like [?]
Why you playing girl you need to start a fund
Hit my nigga up, wrapping up them Ms
You can hate my bank teller, I been getting money
Spending money, you can have that, I can't lie
The way these hoes watching like MDI
He supposed to be my nigga, he ain't right
Steady plotting on me, you lose your life
I cut some hoes and some niggas off, the same time
Told them niggas get the fuck back, you ain't on your grind
You can turn off every light, we gon' still shine
Me and my trap bitch we gon' get to them billions

Hit my trap bitch up and told her we can pay
I ain't worried bout no bitch, we catching plays
On the highway and you know we switching lanes
On that money shit, we do this every day
