

# Twinkle

Chedda Da Connect

Twinkle twinkle like a star  
Twinkle twinkle like a star  
Twinkle twinkle like a star  
Bad little bad little bitch

I just met a bitch named Lala  
She said she wanna go bye bye  
Bitch I'm eating steaks, no ribeye  
Cut these niggas off like wifi  
Yeah I'm in the sky getting hizz-y  
Drop a couple bands, getting flizz-y  
Put that bitch to sleep like a lullaby  
Twinkle like a star, I'm a G5  
Twinkle twinkle little star  
Twinkle twinkle little star  
Twinkle twinkle little star  
Twinkle twinkle little star  
Girl you badder than [?]  
Girl you badder than [?]  
Twinkle twinkle little star  
Twinkle twinkle little star

Twinkle twinkle little star  
She hit the whip in my car  
Sipping drink, no bar  
Bitch don't know who we are  
All I do is get money  
All I do is stack it up  
She bent her ass right over  
Then she started to back it up  
Ain't nothing between us, riding with me  
Supermodel in my city  
I don't fuck with every ho  
Some of these bitches too shitty  
Eat steaks, no ribeye  
Cut the switch on a nigga like wifi  
Go and tell your bitch bye bye  
She put the dick in her ah-ah  
And why you wanna hate on me  
Cause I'm balling like Steph Curry  
Pussy soft like ice cream  
Call a bitch McFlurry  
You can hate on me if you want  
Tell them bitches jump on it  
I originated this style  
You know these niggas gone clone it

I just pull up at the bar, hopped out the foreign car  
I should be in outer space, cause I be with all the stars  
Rickey Wayne campaign, catch me on the yacht like skipper  
Tell your girlfriend I don't want her, cause she ain't wetter than a river  
I know bitches is conceited, telling them niggas beat it  
Lately I been geeking, they been calling me Steven  
Pull up in the Lamb like [?] people  
My bitch she back in movies, call her Queen Latifah  
She got hot head like she got a fever

Dash eat more wood than a fucking beaver  
Pull up in a foreign car, they ain't never gone stop it  
Twinkle twinkle little star, I'm flyer than a hundred rockets  
I just hopped off the plane, had to take a trip to Spain  
If they ever ask you the name, tell em Rickey Wayne, Rickey Wayne

Hey girl it's nice to meet you, picture perfect, Mona Lisa  
Heard she independent and a nigga you don't need it  
Stand your [?] and you conceited, telling broke niggas beat it  
Fuck a dime, you a quarter, you a motherfucking starter  
You a baby mama, that what makes you go harder  
Heard you used to fuck with Sean Carter  
But I'm Rizzo, Rizzo cliquing up  
Mister let me squeeze your fucking butt  
Lala [?], let me fucking cut  
I'm a motherfucking slayer  
Twinkle, twinkle, little star  
See you shining, that's the bomb  
Invite you over to my section  
No more drinking at the bar  
Drive me crazy like a motherfucking car
