

# Biggest Monkey

Chef'Special

I'm gonna be the biggest monkey  
I'm gonna be the biggest monkey of them all  
I'm gonna be the biggest monkey  
I'm gonna be the biggest monkey of them all

All your biting and your barking will be in vain  
You see me standing right on top of the food chain  
I'm not gonna let my brain interfere me  
I'm gonna make the other monkeys fear me  
Always thought that being nice was a good thing  
But now this monkey walks over anything that crosses him  
My primate vision made me strong  
'Cause people are animals that think too long

I'm gonna be the biggest monkey  
I'm gonna be the biggest monkey of them all  
I'm gonna be the biggest monkey  
I'm gonna be the biggest monkey of them all

You gotta watch out when you walk over my land  
I'm gonna raise hell if you talk to my girlfriend  
It's gonna work in my behalf  
And when I make a joke, I expect you to laugh  
That's because I'm stronger than you  
My muscles make me able to tell you what to do  
And I will, yes I will, 'til I'm old and gone  
And new young monkeys will take over my throne

And when it comes to you, my friend  
I'm gonna put your monkey behavior to an end  
And I'm not gonna be easy  
Somebody's got to stop you spreading monkey diseases

I'm gonna be the biggest monkey  
I'm gonna be the biggest monkey of them all  
The biggest, the meanest, the sickest  
The loudest, the tallest, the toughest  
The proudest monkey of them all now  
Of them all now  
I'm gonna be the biggest monkey of them all
