

Down For Love

ChefSpecial

Sé que te quedó grabado a fuego lo que te dejaste para luego
Sé que ya van muchas letras vacías pero escapémonos del qué dirán
Solo haz como siempre hacías como si nadie te fuera a mirar
Yo quiero verte como tú te ves y quiero verme como tú me ves
Yo quiero verte como tú te ves y quiero verme como tú me ves

Coz' I'm down for love
Coz' you're everything I need everything I want
Yeah I'm down down down for your love
Coz' you're everything I need everything I want is your love

Baby I don't need you to be anything you're not
I'm not here to save you I'm not here to change your heart
We don't have to know which way to go we can take it slow
We can take the long way home today
I don't need to be anywhere anyway
Take my hand and
Yo quiero verte como tú te ves y quiero verme como tú me ves

Coz' I'm down for love
Coz' you're everything I need everything I want
Yeah I'm down down down for your love
Coz' you're everything I need everything I want is your love

So many ways to do this
I don't have a blueprint
Maybe it's the memories they're meant to be confusing
You got ways I got mine
We got space we got time
You don't have to follow rules just to be a love of mine

Es un gol en el área de una jugada aérea
Una movie de cabezas cosa etérea
Entre lo que dices y lo piensas ahí está
¿Y si lo llegaras a soltar?

Coz' I'm down for love
Coz' you're everything I need everything I want
Yeah I'm down down down for your love
Coz' you're everything I need everything I want is your love

Coz' I'm down for love
Coz' you're everything I need everything I want
Yeah I'm down down down for your love
Coz' you're everything I need everything I want is your love
