

# Into The Future

Chef'Special

Yo, time flies they buzz around me  
Rainclouds you know they found me  
Thunder sounding underground oh  
I just wanna hide away  
But I just don't get it, why there's no time like the  
Present I'm guessing all these questions they don't  
Ever seem to change  
But I'm not trying to stay the same  
But who's changing nowadays we just making  
These rearrangements maybe making mini modifications  
Please take it easy don't be too crazy come save me

Take me into the future 'cause I know  
Tomorrow goin' be better today I'm feeling low  
Take me into the future 'cause I know  
Tomorrow goin' be better today is moving slow  
Take me into the future

Take me into the future  
Take me into the

Dreams of my eight year old me do they still  
Represent me what I can't be what I could've been  
What I have seen  
Evidently now they bad dreams  
Prophetic or manic I don't remember  
They come at me no matter what every  
Moment I lay down my body and head  
Fuck up the present and run from the past  
All of my blessings so hard to cherish  
All of my lessons hard to remember  
The cards in my hand they don't talk to me ever  
So call of the present I'm gone to november I'm  
Ready I'm ready for the years unborn I'm ready for the inevitable  
So let 'em unfold blindfolded I will follow

Take me into the future 'cause I know  
Tomorrow goin' be better today I'm feeling low  
Take me into the future 'cause I know  
Tomorrow goin' be better today is moving slow  
Take me into the future  
Take me into the future

Lose all track of time, I don't know what I'll find but  
It's goin' be a ride in the future in the future  
Lose all track of time, I don't know what I'll find but  
I'm goin' feel alive like I used to like I used to

Take me into the future 'cause I know  
Tomorrow goin' be better today I'm feeling low  
Take me into the future 'cause I know  
Tomorrow goin' be better today is moving slow  
Take me into the future

Take me into the future
