

Julie was a girl like no other  
She used to have a style that would make 'em boys stutter  
And everytime she rocked that stage with a mic in her hand  
She made me a bit more desperate to be in a band  
Now she was in love the world and in love with the game  
No need for dessert but a hunger for fame  
Yeah spitting flows like a waterfall  
Banging on that wall  
A bad bitch gonna break it all  
Twenty year old wrecking ball  
But then that ball crashed into this guy  
And then she kissed all her dreams goodbye

Julie Julie Julie  
I've been thinking 'bout the things you could've been  
Julie Julie Julie  
So what happened to my favourite high school queen

Yeah Julie she turned into a momma  
Leaving all 'em boys behind and man they never caught her  
Cause Julie was hot no matter whether summer or fall  
She was praised on the block she was all rock 'n roll  
And she became that lady with a belly and a baby  
And a man and a Mercedes and she never rocked the stage again  
I have to say I wasn't ready for 'em sudden changes  
Loved the way she played her cards like all of 'em were fucking aces  
But then she looked  
Looked into his eyes  
And then she kissed all her dreams goodbye

Julie Julie Julie  
I've been thinking 'bout the things you could've been

So what happened to my favourite high school queen

Turned out to be turned out to be  
Oh man I never could've known  
Turned out to be turned out to be  
She was happy as never before  
But Julie time to let you go  
You're like no other took me so long just to see you grow  
And I keep thinking 'bout

I've been thinking 'bout the things you could've been

So what happened to my favourite high school queen
