

# Material Things

Chef'Special

Too bad my material things keep on  
Getting the better of me  
Getting the better of me  
Can't get my material things to make it  
Better any longer I wish I could be stronger

All I want is more than I need  
The never-ending story of the nothing in me  
When I look around it's outta reach  
Look again that could be me  
I've been trying to get to the top and still it's so hard to see

It's a wonderful world  
And her eyes are like pearls  
I got so much to live for it's more than I deserve  
Like the sweet melody  
That she gives me for free  
Should be all that I need

Too bad my material things keep on  
Getting the better of me  
Getting the better of me  
Can't get my material things to make it  
Better any longer I wish I could be stronger

Too bad my material things keep on  
Getting the better of me  
Getting the better of me  
Can't get my material things to make it  
Better any longer I wish I could be stronger

Who wants to be a millionaire  
Yeah right we don't really care  
Tell me I'm looking for love in the wrong place in over my head and I see you there  
Trickle down trickle where  
I turn it up they laissez-faire  
Been crossing the finish line over a million times how come I'm never there

It's a wonderful world  
And her eyes are like pearls  
I got so much to live for it's more than I deserve  
Like the sweet melody  
That she give me for free  
Should be all that I need

Too bad my material things keep on  
Getting the better of me  
Getting the better of me  
Can't get my material things to make it  
Better any longer I wish I could be stronger

Too bad my material things  
Trying to be sane in the madness  
I'm entertaining the masses  
Too bad my material things  
Don't be afraid of the sadness

'Cause I'm entertaining the masses

Too bad my material things keep on  
Getting the better of me  
Getting the better of me  
Can't get my material things to make it  
Better any longer, I wish I could be stronger
