

# Maybe This Is Love

Chef'Special

Oh maybe this is love  
All I know  
It's never gonna be the same  
Oh maybe this is love  
All I know all I know it's  
Never gonna be the same

These are the days I feel alive I feel alive  
Cause I'm around ya  
And we walk in the rain  
Side by side it's no surprise that I would never go back without ya  
And do it over again

My imagination always gets the best of me  
Chasing my shadow to the verge of insanity  
But if you're still here that means there's still us  
Got me thinking

Oh maybe this is love all I know it's never gonna be the same  
Oh maybe this is love all I know all I know it's never gonna be never  
gonna be the same  
They don't know where we've been and they don't know what we've seen  
no  
All I know all I know it's never gonna be the same oh maybe this is l  
ove

I'm wide awake I fall a sleep I'm dreaming of a life without you  
My heart is open again  
I don't know the ending I'm only guessing but no pretending no more  
We can start over again

They don't know where we've been  
They don't know what we've seen no  
But if you're still here it means there's still us  
Got me thinking

Oh maybe this is love all I know it's never gonna be the same  
Oh maybe this is love all I know all I know it's never gonna be never  
gonna be the same  
They don't know where we've been and they don't know what we've seen  
no  
All I know all I know it's never gonna be never gonna be the same

Maybe this is love  
Maybe this is love  
Maybe this is love  
Maybe this is love  
They don't know where we've been and they don't know what we've seen  
no  
If you're still here that means there's still us got me thinking
