

# Money

Chef'Special

Money is the root of all evil  
From the penthouse down to the slum  
Money is the root of all evil  
No matter where you come from

We got that quick money that one hit money  
That play for the risk yeah that all in money  
That slow money got the bloodmoney  
The old and the new and the gunshot money

On the surface it's all fields of gold  
If we don't dig a little deeper we may never know

Money is the root of all evil  
Money is the root of all evil  
From the penthouse down to the slum  
Money is the root of all evil  
Money is the root of all evil  
No matter where you come from

That who cares money, up in the air money  
That big talk show not really there money  
That get lost money, that want more money  
That hand shake rat race front row money

Oh that heartbreak money, that someday money  
That burned bridge, looking back lost your way money  
Oh that frustrate money, making not enough money  
I've lost and I hate, but I love my money

On the surface it's all fields of gold  
If we don't dig a little deeper we may never know

Money is the root of all evil  
Money is the root of all evil  
From the penthouse down to the slum  
Money is the root of all evil  
Money is the root of all evil  
No matter where you come from

From the royals down to the pawns  
From the muscle up to the don  
From your fathers down to your sons

Stuck in this game we are

From the cradle down to the grave  
We are born to be slaves  
Of the debts we need to pay

Money is the root of all evil  
Money is the root of all evil  
From the penthouse down to the slum  
Money is the root of all evil  
Money is the root of all evil  
No matter where you come from

Money is the root of all evil  
Money is the root of all evil  
From the penthouse down to the slum  
Money is the root of all evil  
Money is the root of all evil  
No matter where you come from
