

Shot In The Dark

Chef'Special

If we could swim in the dark, the seas splashish splash
You lift me up, like I'm the air
And the clouds we left behind, they leaving a sunrise to find them back
Tell me could we ever, could we ever found again some more, the kind that makes you forget

Feels so good when we're wasting time
You're my shot in the dark, shot in the dark
Feels so good when we're wasting time
You're my shot in the dark, shot in the dark

Leave with me, fly like this
Cheap tickets for a silent trip
And I don't mean nothing extreme, babe
I'm just trying to reach your eyes a bit
Go, baby go, dine for two
I'mma stay close till I'm with you
Do you wanna jump with your eyes closed, you ask me, yes I do
Yes I do a hundred times, off the rocks out in my mind
And ain't no heart and up I climb, a hundred times, my love is blind
You make me feel like a lion, when you talk with new life, with me
A new life, with me

Feels so good when we're wasting time
You're my shot in the dark, shot in the dark
Feels so good when we're wasting time
You're my shot in the dark, shot in the dark

Give me something, I don't need much
I could do all day with one touch
You know this, you know this
I'm in love
Keep walking, I'll keep you safe
I can wait 'till you're lost on the way
You know this, you know this
I'm in love
Give me something, I don't need much
I could do all day with one touch
You know this, you know this
I'm in love
Keep walking, I'll keep you safe
I can wait 'till you're lost on the way
You know this, you know this
I'm in love
Give me something I don't need much
I'm in love
Keep walking, I'll keep you safe
I'm in love
Give me something I don't need much
I'm in love
Keep walking, I'll keep you safe
I'm in love
