

# Slowdown

Chef'Special

People runnin around  
Screamin somethin is down  
But ey, nothin is down, it's all stuck in the mind  
Somethin somethin to find all the time  
You got your eye on the ball, yet you're falling behind

Tick tack it's the clock check the wrist  
The pit stop isn't really somethin that we wish  
It's us thinking that we must pick up this phone just because it rings yo  
(Stress)  
That's what next, neglect ye rest  
Accept the facts, we got deadlines to catch  
Could ye check my desk cus their sendin a fax  
They depend on my ass, I'll rest when I'm dead  
Right, it's outrageous, shit is dangerous  
Burn outs 'n breakdowns yep that 'll waste us  
That'll brake us, watches 'n races  
Now come on, let's face this  
We're locked up in cages

Slowdown, I'm missin all ye rhythm  
I don't mind to give into ye system  
That's alright if we take time for chillin  
And don't let the time pass you by  
Slowdown, I'm missin all ye rhythm  
I don't mind to give into ye system  
That's alright if we take time for chillin  
And don't let the clock rule your life

Same old shit different day  
But the main roads split when the shivering fade  
I say don't trip but just give it a day  
Cus time ticks and keeps ticking away  
But we don't mind that's ok, we be fine  
Take a little sip of wine chillin while it's primetime  
It ain't a crime, lying to ye boss while ye fine  
Pretendin to be sick drinking vodka 'n lime  
Sometimes I just never give a shit about whatever comes by  
Just let me give it a try: feelin the vibe  
Chill 'n unwind, I'm willing to jive, I got life  
And I be willing to live mine  
Is it the time? Is the rhyme?  
Is it the sunshine tickling my mind?  
Is it the rhyme, no fo sho it's what I am  
Combined with that slow motion time

Slowdown, I'm missin all ye rhythm  
I don't mind to give into ye system  
That's alright if we take time for chillin  
And don't let the time pass you by  
Slowdown, I'm missin all ye rhythm  
I don't mind to give into ye system  
That's alright if we take time for chillin  
And don't let the clock rule your life

Now slowdown, cus I'm missin all ye rhythm  
Man I don't mind to give into ye system

That's allright if we take time for chillin  
And don't let the time pass you by  
Now slow it down, cus I'm missin all ye rhythm  
And I don't mind to give into ye system  
That's allright if we take time for chillin  
And don't let the clock rule your life

Slowdown, I'm missin all ye rhythm  
I don't mind to give into ye system  
That's allright if we take time for chillin  
And don't let the time pass you by  
Slowdown, I'm missin all ye rhythm  
I don't mind to give into ye system  
That's allright if we take time for chillin  
And don't let the clock rule your life

Slowdown, people runnin around  
Slowdown, screamin somethin is down  
Slowdown, but ey, nothin is down  
I don't mind, it's all stuck in your mind  
Slowdown, people runnin around  
I don't mind, screamin somethin is down  
Slowdown, it's all stuck in your mind  
You got your eye on the ball, yet you're falling behind
