

## Try Again

Chef'Special

Looking down with your toes pressed to the edge  
With the sound of your heart beating angry in your chest  
I love the way you leap before you look so many times  
You were jumping of the cliff with your eyes closed, flying blind  
Oh by now we broke our bones and spirits more than twice  
And I see you're so close to lose that sparkle in your eyes  
There's a million voices fighting in your head but you don't have to listen  
And they can break it all down baby but you don't have to fix it all

You can try, you can try, you can try again if you want to  
You can try, you can try, you can try again if you want to  
There's nothing but cool water down there to catch you  
There's nothing but cool water down there to catch you

Slow it down, you're running nowhere if you're running on regret  
You can try, oh it don't mean that you can't free yourself again  
I know it seems so bad but it's just another frame in the slideshow  
So turn the light back on baby, no you don't wanna miss it all

You can try, you can try, you can try again if you want to  
You can try, you can try, you can try again if you want to  
There's nothing but cool water down there to catch you  
There's nothing but cool water down there to catch you  
You can try, you can try, you can try again if you want to  
You can try, you can try, you can try again if you want to  
There's nothing but cool water down there to catch you

Falling or flying  
We can stay close together  
Falling or flying  
There's nothing but cool water down there to catch you  
Falling or flying  
We can stay close together  
Falling or flying  
There's nothing but cool water down there to catch you  
Falling or flying  
We can stay close together  
There's nothing but cool water down there to catch you
