

Wildfire

Chef'Special

Forget the red carpet do forget the trumpets
I'ma get lonely singing in the darkness
Singing for the hardest audience my own judgement
Hardest audience my own darkness

Soft on me possibly maybe he gone love me just cause of me
Please be soft on me possibly please do love me just cause of me

Wildfire
Deep inside me I can still feel the heat
Taking over me
Oh it's a wildfire
Deep inside me I can still feel the heat
Taking over me

So if you're gonna hurt me
If you're gonna burn me
I'll rise up from the ashes be free
Show me no mercy if you're gonna burn me
Just make sure you bring gasoline

Wildfire
Wildfire
Light me up I'ma spread like

Wildfire
Wildfire
Light me up I'ma spread like

Better don't call me better don't bother
I'd rather not promise I'll be back in the morning
None of that is relevant I don't want a helping hand
Not that I don't love ya I'm gonna love you when I'm back again

Next stop rock bottom I ain't there yet
Coming down hard without the airbag
No drop no stardom I ain't no hostage
Death will be like a box of chocolates

Darkness coming for me darkness coming for me
Soft on me possibly please do love me just cause of me

Oh I can feel it coming like a sunrise
Oh I can hear it calling this life
Oh I can feel it coming like a sunrise
Like a distant promise like a blessing in disguise

Wildfire
Deep inside me I can still feel the heat
Taking over me
Oh it's a wildfire
Deep inside me I can still feel the heat
Taking over me

So if you're gonna hurt me
If you're gonna burn me
I'll rise up from the ashes be free

Show me no mercy if you're gonna burn me
Just make sure you bring gasoline

Wildfire
Wildfire
Light me up I'ma spread like

Wildfire
Wildfire
Light me up I'ma spread like

Deep inside me I can still feel the heat
Taking over me oh it's a
