

Hell

Chelsea Cutler

Babe why don't u talk to me
We're acting so damn differently
And I've been giving everything
Cause I don't wanna let u down
Type it out but never send
Cause I don't know if I could bend
And I don't wanna see the end
Cause I just needed u around

Breathe slow, someone help me breathe slow
I can't be my hero every single time

You're the one that fucked up
But I'm the one that's missing u
You're the one that's all right
But I'm the one that's going through hell
Trying to keep myself together
Cause I hate me when we're not together
You're the one that fucked up
But I'm the one that's missing u, yeah

Babe why aren't we listening
I swore to God I'd let u in
And I've been giving everything
Cause I don't wanna let it go
I know we aren't the same love
But I'm giving the same love
And I don't wanna give it up
Cause we aren't meant to be alone

Breathe slow, someone help me breathe slow
I can't be my hero every single time

You're the one that fucked up
But I'm the one that's missing u
You're the one that's all right
But I'm the one that's going through hell
Trying to keep myself together
Cause I hate me when we're not together
You're the one that fucked up
But I'm the one that's missing u, yeah

If I told u the ways that I need u
If I told u the ways that I bleed through
If I told u I can't get enough
If I told u the ways that I need u
If I told u the ways that I bleed through
If I'm giving u all of my love

Babe why don't u talk to me
We're acting so damn differently
And I've been giving everything
Cause I don't wanna let u down

You're the one that fucked up
But I'm the one that's missing u
You're the one that's all right

But I'm the one that's going through hell
Trying to keep myself together
Cause I hate me when we're not together
You're the one that fucked up
But I'm the one that's missing u, yeah

If I told u the ways that I need u
If I told u the ways that I bleed through
If I told u I can't get enough
If I told u the ways that I need u
If I told u the ways that I bleed through
If I'm giving u all of my love
