

# Hold Me While It's Ending

Chelsea Cutler

Fireworks in Manhattan  
We're dancing and laughing  
Like this isn't the end  
Wear me over your shoulder  
As the evening gets colder  
Like we meant what we said

We both know this isn't right  
Love isn't supposed to keep you up at night  
We both know good things can end  
I just don't wanna have to let you go yet

Don't wanna crash  
My body is shaking  
Did you think we could make it  
Something better than this?  
Is your mind made up?  
Tell me, does it falter?  
Can this get any harder  
Than it already is?

We both know this isn't right  
Love isn't supposed to keep you up at night  
We both know good things can end  
I just don't wanna have to let you go yet

These hearts weren't made for bending  
So hold me while it's ending  
It's easier pretending  
So hold me while it's ending

These hearts weren't made for bending  
Oh, so hold me while it's ending  
Ooh, so hold me, hold me  
It's easier pretending  
So hold me while it's ending  
Ooh, ah

We both know this isn't right  
Love isn't supposed to keep you up at night  
We both know good things can end  
I just don't wanna have to let you go yet
