i'll have a good life darling, but it won't be with you.

Chelsea Cutler

It'll be alright
There's no one way things should go
Miss you I might
How I'll always hold you close

Someone will get you
Someone will have me
The world will keep spinning
And we'll both be happy
I'll be a road dog
And you'll want a family
To wake up with someone
But never next to me

It'll be alright
My chest won't always hurt
You'll be mine
For all the years you were

Someone will get you
And someone will have me
And we'll be a picture
A bittersweet memory
And we'll find a reason
It had to go this way
Assign some kind of meaning
To feel some kind of okay

You'll finish grad school
And start to have good days
And I'll walk the dogs in circles
On the West Side Highway
And it'll be alright
We'll move on like we all do
And I'll have a good life darling
But it won't be with you

No it won't be with you
