

# MEAN

Chelsea Wolfe

I can't fake it, I can't sleep  
This fantasy I can't escape  
Clouded mind, haunted lover  
Doomed to want, can't get enough

I can't fake it  
I can't fake it  
Clouded mind, haunted lover  
What did you want?

Did you want to be mean for no reason?  
Did you take it out at me 'cause I'm alone?  
Did you want to be free of the illusion  
That life could be sweet, and you could feel good

I can't fake it  
I can't fake it  
Clouded mind, haunted lover  
Doomed to want more

Did you want to be mean for no reason?  
Did you take it out at me 'cause I'm alone?  
Did you want to be free of the illusion  
That life could be sweet, and you could feel good
