

Sunstorm

Chelsea Wolfe

I remember everything you said
Into my head right before you died
It was the weekend
It was November
I had a strange dream
It was my birthday
I learned about it from a neighbor
You had a bad trip
You crawled right down the hall
You took your fingers you found the cupboard
You twisted off the caps of every single bottle
It's like a waterfall
It's like a laser
It's like a miracle

It's a sharp razor
It was a Thursday
I ran right over
You were laying there twisted at the knees
I remember everything you said
I remember everything you said
